

Pre-ordering

We are a **dental laboratory** with specially trained technicians and make your personal mouth-guard only by working with your dentist.

Your mouth-guard is custom-made in 3 steps:

1. Appointment	with your dentist, who takes an impression of your upper and lower jaw. Print out this Pre- order form, fill it in and take it with you.
2. Express Mail	The dentist sends us the impressions with the Pre-order form.
3. Delivery	by your dentist after 8 business days in a personalised box with care instructions after he has checked the fit.
